

OUR VISION

High-quality health systems, policies, services, & research driven by strong consumer voices.

OUR PURPOSE

We inspire, lead & facilitate health consumers to drive genuine, positive change across health systems, policies, services, & research.

HOW WE WORK

Collaboration, Engagement, and Involvement

Transparency and Integrity

Compassion and Kindness

Diversity and Inclusivity

OVER THE NEXT THREE YEARS, OUR PRIORITIES WILL BE TO:

Advance effective consumer collaboration, engagement, & involvement

- Delivering learning programs to promote effective consumer collaboration, engagement, and involvement.
- Growing regional, State, and National sector partnerships. (See HCNSW Member and Partner Engagement Strategy)
- Fostering expanded consumer engagement through accessible resources, guidance, tools, and information.

Boldly advocate for quality health systems, policies, services, & research

- Strengthening our advocacy work via developing and delivering a bold HCNSW Advocacy Strategy focused on health systems, policies, services, and research.
- Establishing thought leadership platforms to inform health systems, policies, services, and research.
- Delivery of submissions and responses to invited, opportunistic, and member-directed advocacy action.

Grow, diversify, & inspire HCNSW members, partners, & staff

- Growing and diversifying our network via developing and delivering an HCNSW Member and Partner Engagement Strategy, focusing on First Nation, Youth, and research sector member representation.
- Establishing networking and mentoring opportunities to support and inspire HCNSW members, partners, and staff.
- Delivery of member communication that facilitates our vision, enhances our impact, shares our work, and supports new ideas.

Grow our organisational capacity to achieve our vision & purpose

- Growing and strengthening our long-term financial capacity and sustainability via diverse income sources.
- Establishing improved internal structures, processes, and technology via developing and delivering an HCNSW Organisational Review.
- Growing and strengthening our profile within the health and research sectors via developing and delivering an HCNSW Brand and Communications Strategy.

Contribute to sustainability & climate health resilience

- Identifying and growing relevant partnerships to advance our understanding of the role of health consumers in climate and ecological sustainability, including the impact of climate change.
- Establishing and progressing the role of health consumers in climate and ecological sustainability, including the impact of climate change.
- Delivery of opportunities for our members to debate and contribute to sustainability and climate health resilience action.
